Moncher's Doloverde[®]

Pain-relief Ointment is a speciality we have developed in-house, and is produced "by hand" according to long-standing tradition in the Andreas Hofer Pharmacy. The natural, pain-relieving ingredients are processed here with care and in accordance with all the rules of pharmaceutical knowledge and production to create an ointment with a characteristic fragrance of cloves.

Mag. Jakob Moncher

Doloverde[®] is now also available in the online shop.

The popular speciality of the Andreas Hofer Pharmacy is ideal for treating **pain in the muscles, joints and limbs** thanks to its circulation-boosting, pain-relieving and anti-inflammatory effect. Whether you have inflammation of the tendons, bruising, diseases of the joints, aching muscles or tenseness, **Moncher's Doloverde®** Pain-relief Ointment allows you to breathe a sigh of relief and to enjoy a carefree day!

The first **painkiller** that can be applied both internally and externally. Is that even possible? The spray to treat pain of the musculoskeletal system is **based on natural essences** and is simply sprayed onto the tongue or the affected area of skin. **Moncher's Doloverde® Spray** has a reliable effect without any side effects, whether you have acute or chronic pain.

Moncher's Doloverde® Muscles and Joints Bath Soak is a medical bath additive whose essential vegetable oils provide deep, enjoyable relaxation of the muscles. At the same time, the essential oils inhaled via the respiratory tracts ensure a **regenerative effect on the body and mind**.

Moncher's Doloverde® Cooling Gel creates a pleasantly cool sensation and relieves pain and swelling in the case of **acute injuries or swelling**.

DIRECTIONS:

Moncher's Doloverde® Pain-relief Ointment is applied to the painful parts of the body **2 to 3 times a day**, as required. Apply the ointment **thinly and to extensive areas**, and massage in gently with your hands.
